

Get Your Spa Fix at RarinJinda Wellness Spa

The urban spa operates outlets in Chiang Mai, Bangkok and Phuket, though the one in the Thai capital only operates day spa services. Operating at high international standards, you can pick from traditional rubs such as the aromatherapy oil massage, hot stones massage and a Thai herbal massage. Though being the country known for their fantastic massages also means you can expect state-of-the-art facilities for more advanced treatments – Splashy Vichy Massage, Hydropool Therapy, Infrared Sauna, Herbal Steam, Cellutech and more. Book your spa session at Grande Centre Point Hotel and Residences, but if you prefer somewhere in the prime area, the brand has recently opened a branch called Let's Relax at Bangkok's latest mall – Terminal 21.
